INSINKERATOR GARBAGE DISPOSALS

All InSinkErator brand garbage disposals have Dura-Drive™ Induction Motors. These powerful, heavy-duty motors are manufactured by InSinkErator to exact specifications that help ensure high performance and longevity.

The Badger series is a reliable, functional, and cost effective choice, with a range of size, power and warranty options.

If you are looking for a more powerful or quieter solution the Evolution series provides MultiGrind® technology for difficult food items like bones and potato peels and SoundSeal Plus® noise-reduction technology, both standard on this series.
