

NAVIEN TANKLESS WATER HEATERS

NPE-A & NPE-S NAVIEN CONDENSING TANKLESS WATER HEATERS

- **Space** efficient
- **Most** energy efficient tankless heater on the market
- **Reduces** cold water bursts
- **Recirculation System** available on some models
- **15 Year** Heat Exchanger warranty

NAVIEN TANKLESS WATER HEATERS

Navien was an early leader in developing condensing technology for boilers and water heaters. Condensing technology maximizes energy by using unused heat emitted from flue gases. As a result, energy consumption and greenhouse gases are significantly reduced. Emission temperatures are much lower too. These systems will have fewer callbacks, longer life, and faster heating. Navien was first to offer dual stainless steel heat exchangers, rather than copper, which extends the life of the unit by resisting corrosion.

Upgrade to 180A and 240A models to receive a Navien ComfortFlow™ recirculating system. This tank buffer tank and recirculation pump eliminate bursts of cold water other tankless heaters produce.

SPECIFICATIONS

Item #	Model	BTU/H	Energy Factor	Tank Dimensions	Flow Rate (35°F temp rise)	Price
14-1182	NPE-180A	15,000-150,000	0.97 EF	17.3"Wx27.4"Hx13.2"D	8.4 GPM	\$2132.00
14-1183	NPE-180S	15,000-150,000	0.99 EF	17.3"Wx27.4"Hx13.2"D	8.4 GPM	\$1887.00
14-1180	NPE-240A	19,900-199,900	0.97 EF	17.3"Wx27.4"Hx13.2"D	11.2 GPM	\$2650.00
14-1181	NPE-240S	19,900-199,900	0.99 EF	17.3"Wx27.4"Hx13.2"D	11.2 GPM	\$2426.00

Installation & Accessories Priced Separately

WARRANTY

Part Warranty	Heat Exchanger	Labor Warranty
5 Years	15 Years	1 Year
