RUUD GAS & ELECTRIC WATER HEATERS

Ruud Gas Water Heaters use the Guardian System™ sensor that disables the heater in the presence of flammable vapor accumulation. The system contains an Eco-friendly low emissions burner and an efficiency rating of .60 - .63 EF.

Ruud Electric Water Heaters use a resistored copper upper heating element and resistored Lifeguard™ stainless steel lower heating element to prolong the life of the anode rod and tank. This system has an efficiency rating of .95 EF.

Ask about the ProtectionPlus™ extended warranty option to upgrade your warranty from 6 to 10 years.
